problem Statement

In today's world, resumes cannot fully highlight skills and projects. Students and professionals need an easy online platform to showcase their work. A digital portfolio provides this solution.

project Overview

"This digital portfolio showcases my skills, projects, and achievements in a clear and organized way. It includes sections like About Me, Projects, Skills, and Contact, making it easy to present my work and strengths".

About Me

I'm a passlonate web developer with 3 years of experience creating website and web applications.I love turning ideas into reality through ,clean efficient code.

I specialize in modern web technology and always striveto create user-friendly ,responsive designs that look great on all devices.

My Skill

HTML &CSS

Creating beautiful , responsive layouts.

Java Script

Interactive and dynamic web experience.

React

Modern components-based application.

UI/UX Design

User-centered design principles.

My Project

Business Website

A modern,responsive website for a local business with contact forms and gallery.

Todo App

A simple but powerful task management app built with JavaSacript and local storage.

Online Store

E-commerce website with shopping cart functionality and product catalog.

Showcasing My Skills

Projects and experience as a web developer and designer. Demonstrating user experience and user interface design skills.

End Users
